# Janus Tsen

jtsen@stanford.edu • (650) 798-9989 • Stanford, CA • www.linkedin.com/in/janustsen

## EDUCATION

**Stanford University** **Stanford, CA**

*B.A. Economics | Computer Science & Philosophy Minor | 3.9/4.0 GPA* *June 2029*

- **Leadership:** ASES (Launchpad & VC3 Team), Collide Capital Venture Scout, Alumni Consulting Analyst, SENSA VC Analyst

## PROFESSIONAL EXPERIENCE

**DRW** **Chicago, IL**

*Strategy Intern* *Summer 2027*

- Selected for single intern seat on strategy team; will analyze trading and venture initiatives across derivatives markets

**Camber |** Backed by ACME Capital, AI-Native Manufacturing Software **New York, NY (Remote)**

*Strategy Associate* *July 2026 - August 2026*

- Ideated company's central 5-year plan; proposed an adopted ICP shift to custom RFQs to differentiate from competitors
- Researched and qualified 300+ target accounts for an early-stage sales pipeline, using 15 signals across product complexity, demand volume, and tech-stack development to rank fastener-distribution targets by fit and readiness
- Designed a fully automated AI outbound sales system from strategy to execution using Apollo; 20+ converted leads

**Morgan Stanley** **Palo Alto, CA**

*Strategy and Analytics Intern* *April 2026 - August 2026*

- Performed competitive analysis on corporate equity consulting service, identifying gaps relative to Fidelity and Goldman Sachs; recommended shifts in proposal strategy implemented into contract with OpenAI pre-IPO and Lucid Motors
- Built end-to-end, firm-wide agentic workflows to streamline portfolio monitoring and client data tracking, increasing Chevron lead outreach by 14% and reducing analyst preparation time by 6–8 hours per client engagement
- Researched and recommended top 3 alternative investment funds adopted into SpaceX stock diversification strategy

**FSTea (US Division) |** $50M Valuation, RTD Beverages **Sacramento, CA**

*Digital Transformation Intern* *March 2026 - June 2026*

- Led diagnostic audit of the trend-sourcing, product development, and workflows across 2 teams, quantifying 65 hours per week allocated to ideation work; delivered a roadmap to cut brainstorming, production, and tracking time by 45%
- Built a 6-module AI/ML product intelligence system scraping social media and retail SKUs to decipher consumer trends

*Go-To-Market Intern* *July 2025 - September 2025*

- Secured bulk $200k deal with Ocean Queen/Lucky stores and drove $30k+ in retail sales across 5 campus locations
- Modeled production cost across 19 countries and found bulk savings up to 58% in Southeast Asian production centers

## PROJECTS

**Verdnt Group |** AI Implementation Consulting **Stanford, CA**

*Founder & Developer* *January 2026 - Present*

- Scaled to $25k MRR by redesigning enterprise client workflows end-to-end, cutting average admin time by 38%
- Built and launched an outbound and information capture system, driving a 12% cold call rate and ~60% of new revenue
- Reduced client's annual marketing costs by ~$35k by introducing agentic outreach pipeline, scaled outreach capacity 3x

**LeanData |** B2B Lead Qualification **Stanford, CA**

*Predictive Modeling Consultant* *October 2025 - February 2026*

- Engineered a Python-based regression pricing engine for B2B segments using data on churn risk, last sale price, last price, and new price difference, resulting in an 8% increase in profit margins compared to current sales benchmarks
- Delivered a reduction in sales cycle friction by 12 days and $446k+ projected annual revenue uplift to pilot companies

**Homer Humanities |** Global Humanities Nonprofit **Palo Alto, CA**

*Founder & Director* *March 2023 - July 2025*

- Designed and executed a global growth strategy, driving 1.7M+ impressions and 1,600+ submissions in 29 countries
